

ST Telemedia (STT) is an active investor in the communications, media and technology (CMT) space. Focused on catalysing growth and creating sustainable value for our stakeholders, we have built a global portfolio of complementary assets and businesses across the digital value chain. Our four business focus are - communications & media services, enterprise services, data centres and emerging technologies.

Highlights

- Significant investment and operating experience in both advanced and emerging economies across the CMT sectors.
- Proven track record of creating sustainable long term value by facilitating business and operational synergies and helping our portfolio companies develop competitive advantages
- Global network of strategic partners brings international perspectives, sector know-how and in-country market insights
