ST Telemedia Catalyses Students' Potential with Education Awards

Sharing the nation's vision of building a strong Singaporean talent core, ST Telemedia (STT), in partnership with Temasek Polytechnic (TP), launched the 'ST Telemedia Catalyst Award' in January. In line with the company's growth tagline "Catalysing sustainable growth in a connected world", the Award aims to be a catalyst for promising students from needy families to reach their full potential. Offered to second year TP students from a broad range of disciplines, the Award not only provides recipients with financial sponsorship, but also opportunities for meaningful industry-relevant training at STT and its Singapore-based portfolio companies. 'ST Telemedia Catalyst Award' is part of STT's long-standing tradition of giving back to society where nurturing future generations, sustaining industries and enriching communities are the cornerstones of its corporate social responsibility efforts.
